- The CDC reports unvaccinated people are 10 times more likely to be hospitalized than fully vaccinated people. COVID-19 vaccines may be authorized for children 5-11 soon. Plan ahead and talk to your provider if you have questions about vaccinating your child.
#RollUpYourSleevesMn #StaySafeMN
- Unvaccinated students should have at least 1 test/week, or more per CDC. Your child's school might offer testing so make sure to give the administration a call. Find tests for your family here:
<https://mn.gov/covid19/get-tested/testing-locations/index.jsp> #StaySafeMN

- The best way to protect children who can't get vaccinated yet is by getting vaccinated yourself. Find a vaccine near you and bring the whole family (12+) to get vaccinated:
